Terminal Terminology

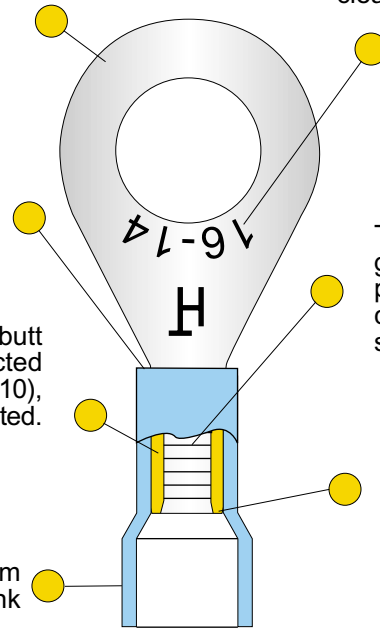

ElectroTin Plating to Mill Specs:
MIL-T-10727C Type I
ASTM B 545 B.
.0001-.00025 Thick

Terminals and connectors are clearly marked with size

Insulator sleeve is color coded for wire size and identification.

Our rings, spades and butt terminals are constructed from pure copper (Alloy 110), annealed & electro tin plated.

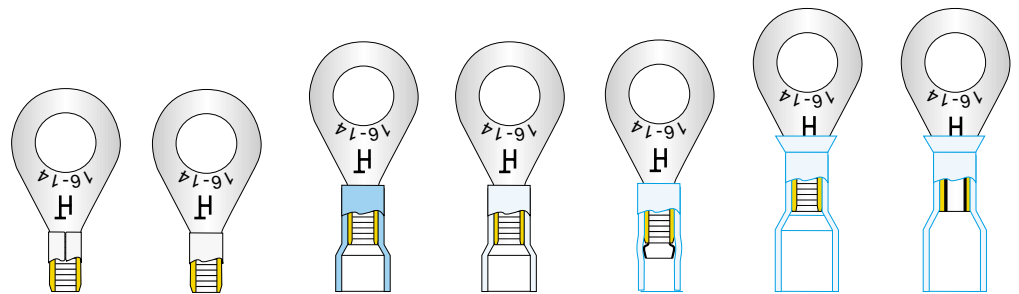

Insulators made from P.V.C., nylon or heat shrink

Terminal have "V" groove serrations to provide maximum contact and tensile strength after crimping

Chamfered on I.D. end for fast, easy wire insertion

Recognizing Terminal Types

1000 SERIES BARE BUTTED SEAM	1000BZ SERIES BARE BRAZED SEAM	2000 SERIES VINYL (PVC) SLEEVE	2000 N SERIES NYLON SLEEVE	3000 SERIES 3-PC NYLON W/SUPPORT SLEEVE	4000 SERIES HEAT SHRINK MOISTURE PROOF	6000 SERIES HEAT SHRINK W/SOLDER RING NO CRIMP
